```
// connect ugens
FooGen foo => BarGen bar => dac;
foo => dac;
```

dynamically create
and connect unit
generators

```
// loop
while( ... )
{
    ...
    xyz() => foo.abc;
    ...
    ...
    D1 +=> now;
    ...
    ...
    D2 +=> now;
}
...
D3 +=> now;
...
```

assert control
on UGen foo
